Mobile Emergency Shower and Eye Wash Room, SS304, 300 mm Eye Wash Bowl, Glass Double Doors, Casters

Model **MSEEWS-213SWISS** | Brand **Master Science**

The Master Science Mobile Emergency Shower and Eye Wash Room is a self-contained booth that gives a person splashed with chemicals a private, enclosed space to shower and rinse their eyes. Glass double doors let a colleague see inside, and the floor sink collects the waste water instead of letting it spread across the site.

KEY HIGHLIGHTS

- Contained decontamination
- Visible but private
- Place it where needed
- Ready for cold sites

Overview

The booth is made from SS304 stainless steel and stands on universal wheels, so it can be placed in a corner, against a wall or moved as the site layout changes. A lifting ring on top helps with installation. Body drench and eye/face wash can be used separately or at the same time, and the size and pipe connections can be customized.

For indoor labs with limited space, see our wall-embedded emergency shower and eye wash, a compact option next to the Master Science Mobile Emergency Shower and Eye Wash Room.

Emergency Response Problems the Master Science Mobile Emergency Shower and Eye Wash Room Solves

Open safety showers flood the area and give no privacy. The Master Science Mobile Emergency Shower and Eye Wash Room addresses:

Key Benefits

Contained decontamination
The Master Science Mobile Emergency Shower and Eye Wash Room keeps contaminated water inside its own sink.

Visible but private
Glass double doors allow supervision during use.

Place it where needed
Universal wheels let you reposition the booth.

Ready for cold sites
Space is left around the pipe holes for heat-tracing cable.

Technical Specifications
