Wall-Embedded Emergency Shower and Eye Wash, SS304, 76 L/min Shower, 11.4 L/min Face Wash

Model **MSEEWS-316SWISS** | Brand **Master Science**

The Master Science Wall-Embedded Emergency Shower and Eye Wash fits into the wall so that it takes almost no floor space and stays closed against dust when not in use. That makes it a good fit for aseptic production areas, hospitals and high-end laboratories where exposed fittings are unwelcome.

KEY HIGHLIGHTS

- Saves floor space
- Stays clean until needed
- Two functions in one
- Adjustable flow

Overview

One unit provides both a full body shower and an eye and face wash. The housing and shower head are 304 stainless steel, the eye wash heads are ABS engineering plastic, and each spray head has its own flow control valve. Flow rates meet the levels typically needed for emergency decontamination: at least 76 L/min for the body shower and 11.4 L/min for the eye/face wash.

Reduce the risk of splashes in the first place by storing corrosives in our PP acid and alkali storage cabinet, alongside the Master Science Wall-Embedded Emergency Shower and Eye Wash.

Free-standing safety showers take space and collect dust. The Master Science Wall-Embedded Emergency Shower and Eye Wash answers both issues and more:

Key Benefits

Saves floor space
The Master Science Wall-Embedded Emergency Shower and Eye Wash is recessed into the wall instead of standing in a walkway.

Stays clean until needed
The enclosed design keeps dust off the heads.

Two functions in one
A full body shower and an eye/face wash share one housing.

Adjustable flow
Each spray head has its own control valve.

Technical Specifications

GENERAL

General	Specifications of the Master Science Wall-Embedded Emergency Shower and Eye Wash:
Brand	Master Science
Model Number	MSEEWS-316SWISS
SKU	MSEEWS-316SWISS
Brand	Master Science
Model	MSEEWS-316SWISS
SKU	MSEEWS-316SWISS
Material	304 stainless steel
Installation	Wall embedded
Function	Body shower plus eye/face wash
Shower head	304 stainless steel
Eye wash spray head	ABS engineering plastic
Body shower flow rate	≥76 L/min
Eye/face wash flow rate	≥11.4 L/min
Eye wash flow rate	≥1.5 L/min
Flow control	One water-flow control valve per spray head
Inlet thread	Rp 1″ female
Outlet thread	Rp 1-1/4″ female

SAFETY PROBLEMS THE MASTER SCIENCE WALL-EMBEDDED EMERGENCY SHOWER AND EYE WASH SOLVES

Blocked walkways	Recessed mounting keeps corridors clear.
Dusty, unhygienic heads	The enclosure protects heads until use.
Separate eye wash and shower	One unit handles both emergencies.
Uneven spray	Individual valves let you balance each head.

Applications

The Master Science Wall-Embedded Emergency Shower and Eye Wash is suited to: Aseptic and clean production workshops Hospital laboratories and pharmacies Chemistry and biology research labs Pharmaceutical QC labs Chemical handling areas with limited floor space

Construction

- 304 stainless steel housing
- Stainless steel shower head
- ABS engineering plastic eye wash heads

Performance

- Body shower ≥76 L/min
- Eye/face wash ≥11.4 L/min
- Eye wash ≥1.5 L/min

Installation

- Wall-embedded mounting
- Rp 1″ female inlet
- Rp 1-1/4″ female outlet

Standard Accessories Included

- Wall-embedded emergency shower and eye wash unit
